The **Penken Loop Hike Trail** is the newest attraction in the Penken area. It includes the following trails:

- **BergWaldWeg**
- **WinterWanderWeg Penken**

👍 We did introduce the "**Loop Hike Ticket**" especially for this trail. The ticket can be purchased at **all stations** and gives maximum flexibility regarding the possible trails. With this ticket you can use **4 lifts of your choice** between Penken and the Finkenberger Almbahnen.

## Our suggested route

- Our starting point is **Finkenberg**. From there you take the gondola to the middle station (1,750m).
- Once there you can walk the **BergWaldWeg** until you are at the mountain station of the Penken.
- Next you take the gondola to the **mountain top** (1,994m). From there you can walk the **WinterWanderWeg Penken** towards the Penkenjoch (2,095m). You will pass the impressive **Capella Granata** and the **reservoir pond** before you reach the mountain station of the **Penkenjoch**.
